The Partners

The Austrian Research Promotion Agency (FFG) implements Austria's aerospace policy and connects enterprises, research institutions and researchers with aerospace stakeholders worldwide. Together with strong partners, FFG is scouting for innovative business ideas in order to turn them into high-flyers. No matter if the valley is deep and the mountain high, Austria and the satellite navigation industry are joining forces to promote space-based innovation.

The Prizes

Take your business to the next level with*:

- › EUR 4,000 cash prize
- › Business consulting and dedicated coaching provided in Austria (worth approximately EUR 4,000)
- › Free travel to the Space Oscars 2019 - Awards Ceremony
- › Two months of incubation at the ESA BIC Austria in Graz
- › Chance to win one of three tailored E-GNSS Accelerator incubation prizes worth EUR 62,000
- › Chance to win an E-GNSS Accelerator crowdfunding prize worth EUR 35,000
- › An extra EUR 10,000 cash prize if your idea gets selected as Galileo Masters 2019 Overall Winner
- › The first and second runner-up will receive a cash prize, business consulting and dedicated coaching provided in Austria
- › The winner and runner-ups will be invited to apply for ESA BIC Austria and if eligible, receive an additional incentive funding of EUR 50,000 from ESA and local partners

*In order to receive the prize, a winning team or a person has to be registered in Austria.
